It is noted that on instant pg. 3, line 2, "1,3" should be replaced with – 1.3 – and "2,0" should be replaced with – 2.0 --. Also, on pg. 5, line 1, "0,5" should be replaced with – 0.5 – and "1,0" should be replaced with – 1.0 --. Also, in line 4, "1,3" should be replaced with – 1.3 – and "2,0" should be replaced with – 2.0 --.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

Art Unit: 1754

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Livesey-Goldblatt in view of Virnig '380.

Livesey-Goldblatt teaches the instantly claimed process wherein the pH is adjusted to 2-3 and the moisture content is 19-20% and gold is recovered from a cyanide solution thereof but differs in that the pH only overlaps that instantly claimed. See the abstract and pp. 91-94 and Fig. 1.

The subject matter as a whole would have been obvious to one having ordinary skill in the art at the time the invention was made to have selected the overlapping portion of the range disclosed by the reference because overlapping ranges have been held to be a prima facie case of obviousness, *In re Malagari*, 182 USPQ 549.

Livesey-Goldblatt differs also in not reciting recovering the base metal by using solvent extraction or ion exchange techniques.

Virnig teaches that gold is recovered from aqueous cyanide solutions containing same by using an ion exchange resin. See col. 1 and claim 1.

It would have been obvious to one skilled in the art to use the ion exchange resin of Virnig to recover the gold of Livesey-Goldblatt because Livesey-Goldblatt provides the cyanide solution of gold that is required by Virnig to be treated by ion exchange to recover the gold therefrom. See *In re Kamlet* 88 USPQ 106.

Applicant's arguments filed February 15, 2005 have been fully considered but they are moot.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
